

Kennel Care — GDPR Statement

How we handle personal data, in plain language

Kennel Care is built and operated by ATC Dynamic Ltd, and we take data protection seriously. This page is a short summary for anyone wanting a quick answer — for the full detail, see our **Data Usage and Privacy Policy**, also available on this Downloads page.

What We Collect

Just what's needed to run the service: your account details (business name, email address), the temperature and humidity readings from your own sensors, and — only if you choose to connect it — a Telegram ID so we can send you alerts. We don't track you across other websites, and we don't collect anything for advertising purposes.

What We Don't Do

We never sell or share your data for marketing purposes, to anyone.

How Long We Keep It

Sensor readings are automatically and permanently deleted after 60 days. You can export a CSV copy for your own records at any time before then.

ICO Registration

ATC Dynamic Ltd is registered with the Information Commissioner's Office (ICO) as required for a business processing personal data.

Your Rights

You can ask us for a copy of your data, ask us to correct it, or ask for it to be permanently deleted, at any time. Just email info@atcdynamic.co.uk.

Questions

Email info@atcdynamic.co.uk — we're a small team and you'll get a reply from a real person.
